DEMOGRAPHIC OVERVIEW

Demographic data aids with understanding a community's structure as it reveals information about age, gender, ethnicity, education and other primary factors of the population. Between 2022 and 2023, the U.S. experienced a slight population increase of 0.8 percent. **Nationwide, two-fifths of counties had population increases of more than 0.5 percent, while one-fifth experienced a decline of over 0.5 percent.** Wyoming County, home to 20,277 residents, had a 1.4 percent decrease in population between 2022 and 2023.

County population components of change - 2023

-8.27 PER 1,000 RESIDENTS
natural population change

-6.17 PER 1,000 RESIDENTS
net migration

Source: U.S. Census Bureau - Population Estimates Program (PEP) - 2023.

The negative natural population rate of change for Wyoming County indicates deaths outnumbering births and can lead to population decline in the community. The county's net migration rate is negative which indicates an outflow of people, or that more people are leaving the county than moving in.

LABOR FORCE TRENDS

The labor market is a key determinant of economic growth and residents live in places where they can find work. Labor force indicators, such as the unemployment rate and labor force size, assess local economic dynamics and employment trends. Through analysis of these metrics, decision-makers can gain insights into workforce health, anticipate future labor needs and identify areas for intervention. **The nation's unemployment rate, which was a healthy 3.6 percent in 2023. More than half (56 percent) of counties had unemployment rates below this national figure in 2023.**

Source: U.S. Census Bureau - American Community Survey (ACS) 5 year estimates, 2019-2023: DP04 and B07013 tables.

Housing Affordability

Households that pay more than 30 percent of their income on housing are considered cost burdened and, **in most counties, renters are more likely to be cost-burdened than homeowners.**

Housing affordability statistics for Wyoming County: 2019 - 2023 data

Owner-Occupied Housing Units		Renter-Occupied Housing Units	
Percent Moderately-Burdened Owners	6.2%	Percent Moderately-Burdened Renters	35.6%
Percent Severely-Burdened Owners	7.4%	Percent Severely-Burdened Renters	21.8%
Total Percent Cost-Burdened Owners	= 13.7%	Total Percent Cost-Burdened Renters	= 57.4%

Source: U.S. Census Bureau - American Community Survey (ACS) 5 year estimates, 2019-2023: B25070 and B25091 tables.

Nationwide, 50.4 percent of all renters are burdened by the cost of rent. **For Wyoming County, the figure is 7.0 percentage points above the national average.** Out of all homeowners in the U.S., 22.2 percent of households are cost-burdened **and in Wyoming County, the percentage is 8.5 percentage points below the national average.**

POVERTY AND COMMUNITY HEALTH

After decreasing for years, the national poverty rate increased slightly from 2020 (11.5%) to 2021 (11.6%) but then declined to 11.5% in 2022 and further to 11.1% in 2023 . Poverty tends to be concentrated in specific geographical areas and often persists over extended periods. Vulnerable groups, including individuals with disabilities, those residing in rural areas and specific racial and ethnic minorities, face higher risk of poverty.

Poverty statistics for the Wyoming County - 2023

Health Insurance

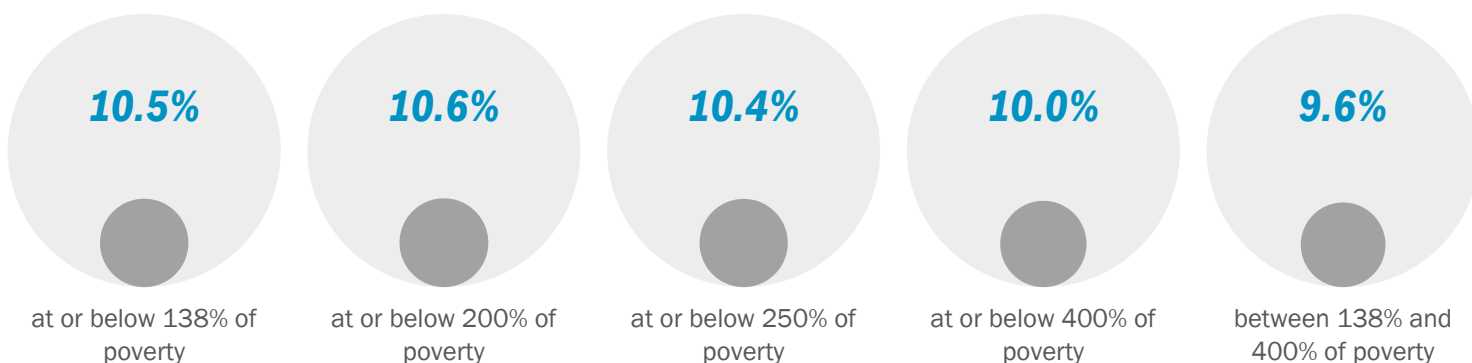

A healthy population contributes to a more productive workforce, and the health consequences of poverty are severe. People living in poverty, especially children, are at a higher risk for mental illness, chronic disease, higher mortality and a lower life expectancy.

Health insurance statistics in Wyoming County - 2022 share

Health insurance plays an important role in ensuring access to health services. In 2022, 8.4 percent of all U.S. residents do not have health insurance. The share of residents in Wyoming County with no health insurance is 9.2 percent, 0.8 percentage points above the national level.

EDUCATIONAL STATISTICS

A county needs working-age residents to support current and prospective companies, and counties with sufficient working-age residents tend to have training and educational opportunities for young workers to develop their skills. Educational statistics can help community leaders to recognize areas of need, distribute resources, formulate policies and initiatives and involve the community in discussions about educational requirements, including vocational training and skill development. **There are over 95,000 public schools, more than 8,600 libraries and over 5,800 community colleges and universities in the United States, serving our communities and contributing to the landscape nationwide.**

Educational resources in Wyoming County

Public Libraries 2022 data	Operational Schools 2020 data	Colleges and Universities 2022 data
1 library	14 schools	—

There are 14 public, locally-operated school in Wyoming County being operated by one district.

Educational Attainment

Educational attainment refers to the highest level of education that an individual has completed.

NATURAL DISASTERS

Natural disasters can have a devastating impact on both the environment and local economies **causing an increase in people leaving the affected areas, a drop in home prices and higher rates of poverty.** Many residents are also facing increased insurance costs. In 2024, the U.S. was impacted by **27 separate billion-dollar disasters, which resulted in approximately \$182.7 billion in damages.** Additionally, 849 counties experienced at least one federally declared major disaster in 2023.

Federally declared disasters for the county - 2000 to 2023

Like every other county in the nation, **Wyoming County** faced the effects of the **COVID-19 pandemic, which was declared a major disaster by the federal government.** Additionally, between 2000 and 2023, the county was affected by severe storms, flooding, hurricanes and snowstorms which were also federally declared disasters.

The National Risk Index

The National Risk Index is a tool developed by the Federal Emergency Management Agency (FEMA) in the U.S. to assess the risk of natural hazards and their potential impact on communities. It considers factors such as the probability of hazards occurring in specific areas, along with demographics, infrastructure, socioeconomic factors and the built environment. With a comprehensive assessment of risk levels at the county level, the index enables community leaders to prioritize resources and develop strategies for disaster mitigation, preparedness, response and recovery.

Risk Index breakdown for Wyoming County

Avalanche Not Applicable	Coastal Flooding Not Applicable	Cold Wave Relatively Low
Drought Not Available	Earthquake Very Low	Hail Very Low
Heat Wave Not Available	Hurricane Very Low	Ice Storm Very Low
Landslide Relatively Low	Lightning Relatively Low	Riverine Flooding Relatively Moderate
Strong Wind Relatively Low	Tornado Very Low	Tsunami Not Applicable
Volcanic Activity Not Applicable	Wildfire Relatively Low	Winter Weather Relatively Low
